

On January 11 You Can Help Plan League Actions for 2017-18

Our annual program planning meeting will be at 7:00 p.m., January 11. This

is your chance to set our education and advocacy priorities for Berkeley-Albany-Emeryville and the California League. Come join us at the office, 2530 San Pablo Ave, Suite F, Berkeley, 7:00-9:00 p.m. to help us make these decisions.

Annual Program Planning meetings in every League let members bring their ideas and discuss them with League colleagues. In alternating years, we discuss National or State League programming. This year is State. Is there a policy area where you think the State League should be active, but we have never studied? Or perhaps our positions are out of date? Now is your chance to suggest changes.

Preparation Is Essential! If you feel strongly about an issue, spend some time preparing a brief and persuasive proposal. Before you attend the meeting on January 11, review the relevant [LWVBAE](#) and [State League](#) positions.

If you'd like to know more about the program planning process for State League and relevant positions, the links to the Program Planning Kit and positions are at the end of the Program Planning story at lwvbae.org.

Now is your opportunity to influence our League's direction!

President Deborah Malbec: League Challenges in 2017

What an election season! The ups, the downs! All of the local Berkeley and Albany measures came out with results recommended by LWVBAE. Berkeley voter participation was over 78%—that in itself is a big win,

the highest participation since at least 1980. AC Transit, BART, and Affordable Housing all won funding support. Most of the California State measures were also as League recommended, with the sad exception of the death penalty, which will remain in place, with procedures to hasten it, yet most experts think that Measure 62 will be held up in court battles for years.

On the national front, the will of the majority will not be granted. But we must not give up! Fighting for voting rights, for fair treatment for immigrants, and for medical care support must continue. Working to reverse the effects of climate change requires ongoing effort. The work of the League of Women Voters is even more necessary than before. Our committees will be gearing up for ongoing action—please be an active participant!

The November 2016 Election Cycle–In Brief

This election we were busier than during any election in recent memory. California had the most registered voters in State history. Alameda County voter participation was over 75%, and Berkeley was even higher, as Deborah points out in the story at left.

- **Your Action Team** started the November 2016 Election Cycle in early summer by reviewing 39 ballot measures: 17 State, 3 county/regional, and 19 local. Then they
 - Researched and analyzed the local measures.
 - Interviewed their authors and supporters and opponents.
 - Wrote up—for League member discussion—Pro and Con positions, thus enabling members to advise the Board about which measures to support or oppose.
 - Campaigned for measures we supported.
 - Published, distributed, and posted online the State, County/Regional, and Local “Vote with the League” flyers—on paper and our website.
- **Your Voter Services Team** published balanced pro and con information on every measure and produced events for nearly every candidate race that Berkeley, Albany, and Emeryville citizens would vote on. Activities included:
 - Produced candidate forums for 65 candidates and for all races in our 3 cities.
 - Recorded all candidate forums, which could then be viewed 24/7 on our website and on YouTube. The local access/government cable stations in Berkeley, Albany, and Emeryville streamed and replayed the local candidate forums.
 - Published and distributed “Pros and Cons” for all 39 local ballot measures and the 3 regional measures on our website and in our local “Busy Voter” publication and distributed the State LWV “Easy Voter.”
 - Presented “Pro-Con” analysis of ballot measures upon request to churches, civic organizations, and local libraries—using “slide” shows, handouts, and speakers. Our President answered voters’ questions on two local KPFA radio programs.
 - Info about all ballot measures and statewide candidates and most local candidates was available 24/7 on Votersedge.org/CA—the joint online website of LWVC and MapLight.
